

vytal.

A vital sign for fitness businesses. One pulse: the mark, the brand, the product that keeps a gym's heartbeat in view.

LOGO

ON DARK · #080C0A

ON LIGHT · #F3F7F4

SUB-BRANDS · PRO & MY

The product name leads, as one word. **myVytal** is the athlete's own space; **proVytal**, for the people who run the box. The green prefix carries the brand colour; "Vytal" stays in full. The pulse tile never changes, and the app icon is always the single **Vytal** mark.

MONO • JETBRAINS MONO

USAGE

✓ DO

- Pick the lockup that fits the background: light vs dark.
- Keep clear space $\approx$ the tile's corner radius around the logo.
- Let the pulse breathe; the green tile is the constant.

✗ DON'T

- Recolor the tile or the pulse, or add gradients.
- Stretch, rotate, or outline the lockup.
- Use the signal colors (cyan/amber/red) as the brand.

Vytal • **vytal.fit** • one pulse across the brand and its products.
